floor/revetment type

Floor type: Beaten Earth Opus signinum Opus scutulatum Opus Sectile Mosaic Opus spicatum Other (specify)

Wall finishing Stucco Opus signinum Plaster Painted Plaster Other (specify)

Approx. length, width, height of structural remains:

(reconstruction) lengths: 4,40m width: 0,50m height: 0,40m (state of preserv.)

Description: The wall is badly preserved, but its traces can be followed. Interestingly it has the best preserved ashlar in the hole structure. This block shows still it's original height (0,87m) and orig. width (0,50m), so that the original wall could be reconstructed to a certain extent.

INTERPRETATION

eastern retaining wall of room 6, offset in terms of alignment from wall 1185, therefore it could present a later addition. Please see also SU sheet 1308 for further explanation.
