**INTERPRETATION**

Thick lead sheet which formed the base of cappuccina grave 34.  
 Relatively regular in shape, with slightly rounded corners. conforms to the contours of underlying surface slightly (i.e. not completely flat). This slight warping is probably due to the weight of the grave + soil above pressing down over time.

length: 1,48m      width: 0,58 m      thickness: 0,07m
