Description: *remains of a built feature from one or two rounded slopes of travertine and a rather square block of local tufo, beneath the stones, there is a little cut in the bedrock*

INTERPRETATION

*remains of a built feature near the cistern (SU 1153). This built feature is situated in the corner behind the drainage channels which feed the cistern SU. Beneath the masonry of feature SU 1499 there is a little cut in the bedrock, probably **
