Approx. length, width, height of structural remains:

Description:
 width ≈ 282 cm
 length - east - 473 cm
 irregular shape west - 493 cm
 north-south line running through center
 irregular shape

INTERPRETATION

north-south line running through center possibly indicating 2 phases of construction with the paving stones
 the limits of western edge indicate a possible destruction of more pavement
 the pavement appears to continue under eastern and partly north eastern limits - relative levelness to the pavement but slopes to south
