**Northern half of Western wall of Room 3, composed of two tub ashlar blocks.**

**Sketch (if applicable, indicate North)**

**INTERPRETATION**

This wall covers the threshold 5344, which it was cut to fit. Therefore, the wall must have been moved into place after the threshold was placed, likely as part of the same construction phase. It is covered by SU 5383 and SU 5357, the floor preparation layers inside and outside of Room 3, which must have been put in after the ashlar blocks were placed. It forms the northern part of the western wall of Room 3 and is equal to 5341, the northern wall of Room 3, which was placed at the same time.
