**Description:**

**E-W concrete wall within room 11 covered by SU5360 and covering SU5368. section on northeast side partially missing. The top of the wall is very cleanly truncated.**

**Sketch (if applicable, indicate North)**

**INTERPRETATION**

**wall seems contemporaneous with floor 5325 as north-west border of floor. wall probably later partially knocked down for expansion of room 11 to the north-west. probably had a later floor placed on it, as suggested by the even truncation + the level of the foundation of the later walls just above the level of this truncation.**
