Description:

Wall in concrete which abuts the ashlar wall 5006. The wall is founded partially on the bed rock partially on the earlier floor 5462 and on the drain 5401 = 5468. In this part, in particular, benches of the concrete foundation of the wall were preserved.

Sketch (if applicable, indicate North)

**INTERPRETATION**

concrete wall probably with an enclosure function (due to the small dimensions of the foundation and to its small height\*) - The wall clearly abuts the ashlar wall 5006 and is related to a later use of the area (courtyard?).

\* that is supposed to be the original one
