Description:

Three elongated grey tufo blocks along alignment of road. Abutted by pavement of tufo slabs to the south. Easternmost block has square cut and elongated cut runs along all three blocks. The western block contains a rectangular cut near its eastern limit.

Sketch (if applicable, indicate North)

**INTERPRETATION**

Grey tufo threshold for the road facing of Room 14. Contains cuts for some sort of covering for the entrance. In phase with 5470 and abutted by tufo slab paving north of street. Different grey tufo from original red tufo phase. In use during latest phase, possibly in use earlier. The long groove cut into the stone suggests a very large opening, probably for some sort of taberna fronting on the road.
