Description:

N-S glarinate road surface, NE of the monumental ashlar wall. Includes compact rubble + ceramic material.

Sketch (if applicable, indicate North)

**INTERPRETATION**

SU 5498 is what remains of a N ↔ S glarinate road just east of the monumental complex. At the southern limit of 5498, the road may have once been paved with basalt, now robbed out. Perhaps the road to the north - glarinate, & narrow compared to further south - was somehow less significant than further south.

The distinction also adds significance to the monumental complex as it occurs right at the northern limit of the complex.
