Description: E-W wall / fragment

in SE of AREA F-North.  
 west side has deteriorated, but is most likely equal to SU 5158

opus reticulatum facing  
 Gray tufo cubilia. No construction around, but the wall cuts through the dumps above the stairs.

Sketch (if applicable, indicate North)

**INTERPRETATION**

Southern most wall / F-North, cutting through dumps associated with the staircase (S170), equal to SU 5158. Concrete w/ opus reticulatum facing. This wall appears to be of a later phase than all features to the north, since its construction presumes that these features were not visible.
